Dear Grand Design RV Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Grand Design has decided a safety defect exists in certain model years **2022** through **2024 Grand Design Momentum 23G & 25G** travel trailers equipped with incorrect safety chains. Accordingly, a recall to address this issue is being initiated effective September 6, 2023.

### **! IMPORTANT !**

- Your vehicle falls within the recall population.
- You should immediately schedule an appointment with your dealer to have your vehicle repaired.

#### **Why is a recall being conducted?**

The defect involves certain 2022-2024 Momentum Travel Trailers equipped with 11,700-pound safety chains. The safety chains are underrated for the GVWR of the trailer. Should the trailer become uncoupled from the tow vehicle and the safety chains fail, this could lead to a loss of control, increasing the risk of a crash.

**What are we doing about the problem?**

Grand Design RV will notify owners by mail and advise you take your trailer to a dealership to replace the safety chains. Grand Design will supply to your dealer, the necessary items to complete the repair or replace the incorrect part. Time for repair is approximately 1 hour. These repairs will be done free of charge.

**What should you do?**
