Dear Grand Design RV Owner:

This notice is sent to you in accordance with the requirements of the *Canadian Motor Vehicle Safety Act*. This is to inform you that your vehicle may contain a defect that could affect the safety of a person.

Grand Design RV has determined that a defect which relates to motor vehicle safety exists in certain **2023 Grand Design Momentum** travel trailers, and **Reflection** fifth wheel and travel trailers.

! IMPORTANT !

- Your vehicle falls within the recall population.
- You should immediately schedule an appointment with your dealer to have your vehicle repaired.

Why is a recall being conducted?

A defect with CURT Axles by Lippert was determined to exist in certain **2023 Grand Design Momentum** travel trailers **and Reflection** fifth wheel and travel trailers produced between February 21, 2023, and June 5, 2023. On certain RV trailers, the grease fittings on the axles may not have been tightened properly. As a result, a fitting could separate and damage the pin that locks the axle nut in place. If the axle nut comes loose, the spindle and wheel could separate from the trailer. A wheel separation could cause a loss of control and increase the risk of a crash. Additionally, a wheel that separates could also hit another person or vehicle.

What are we doing about the problem?

Grand Design will notify owners by mail and advise you to take your trailer to a dealership to inspect the axle assembly. It will be repaired or replaced, as needed at no cost to you.
