Service & Warranty

Dealer's Responsibilities

When you buy your new RV, at the time of purchase, your dealer is expected to:

- **DELIVER your RV in the best condition possible.**
- Your RV must pass the dealer's Pre-Delivery Inspection (PDI). This inspection tests all systems and components.
- PROVIDE an orientation to familiarize you with how to operate all systems and components of your new RV.
- REVIEW with you, and explain the provisions of the *Limited Base Warranty* and *Limited Structural Warranty*.
- SEND your completed *Warranty Registration and New Vehicle PDI Check List* to Grand Design RV.
- **Your registration form is required within 30 days of the delivery date to activate your warranty coverage.**
- ENSURE that you receive a complete Owner Information Package. Assist you with all component manufacturer warranty registrations (ie, locating the model and serial numbers of components as needed).
- EXPLAIN how to obtain local and out-of-town service for your RV, and its (separately warranted) components, including repairs NOT under warranty.
- SERVICE all Grand Design RV products.

Owner's Responsibilities

As the owner, you are responsible for the regular care and maintenance of your RV in accordance with this manual and the component manufacturer's instructions.

- It is also your responsibility and obligation to return the RV to an authorized dealer for any warranty repairs and service that may be required.
- Proper maintenance will help avoid situations where the *Limited Base Warranty* and *Limited Structural Warranty* will not cover items due to neglect.
- Your dealer is responsible for proper service prior to delivery, and has a continued interest in your satisfaction.
 - We recommend warranty and maintenance services be performed by *your* Grand Design RV dealer.
- it is important to protect yourself and others with insurance coverage for your RV. Your insurance agent can assist you in obtaining the appropriate insurance coverage for personal liability, theft, collision, property damage, etc.

The Limited Base Warranty and the Limited Structural Warranty are activated only AFTER Grand Design RV receives a completed (*signed & dated*) warranty registration form from your dealer.

Failure to contact Grand Design RV Customer Support, unauthorized or improper warranty repairs, or not returning requested original parts may result in loss of reimbursement and/or loss of warranty.

Owner Information Package

 This Warranty Guide, the Owner's Manual and the Owner Information Package should be considered a **permanent part** of the RV. If the RV is sold, all of these should remain with the RV for the next owner.

Owner Information Package

The Owner Information Package contains the OEM manuals and registration information for various individual components of your new Grand Design RV Fifth Wheel or Travel Trailer.

- It is critical that you register and activate each component warranty within the prescribed time limits to avoid loss of warranty coverage.
 - **Some manufacturers require online registration through their company website.**
 - *See the Component Manufacturer Warranty Information list at the end of this Guide.*
- Some component manufacturers offer warranties beyond the Grand Design Limited Base and Structural Warranties.
- Other components are warranted separately and exclusively by the individual component manufacturer, and are therefore excluded from our Limited Base and Structural Warranties.
- **BEFORE using your RV, it is important that you read and understand the information in this manual and your Owner Information Package. Some component manuals are ONLY available on the manufacturer's website.**

Obtaining Warranty Service

Warranty service must be obtained:

- WITHIN a reasonable time after the discovery of a defect, *and*
- BEFORE the applicable warranty period expires.

To help your dealer provide you the best level of service, please do the following:

Call ahead

It is best to have your service performed several weeks before you plan to use your RV. Your dealer may need some time to get you in their schedule. Most service departments are the busiest on Mondays, Fridays and before holidays.

Be prepared

Keep your warranty and service history paperwork available. Past repairs and maintenance records may help the service technician diagnose a current issue.

Make a list

Provide the dealer a prioritized list of all repairs needed. If you need your RV returned by a specific date, discuss this with the dealer's service management. A second appointment may be required to complete lower priority list items or if parts need to be ordered.

While waiting

If possible, drop off your RV. Usually, customers cannot watch as repair work is performed. A shop's insurance may even require that customers not be allowed in the service area.

Inspect the work performed

Inspect all repairs thoroughly. Notify the dealer's service manager of any dissatisfaction right away.

- If you cannot immediately return your RV for repair, make an appointment to return as soon as possible.
- ***If a problem re-occurs after leaving the dealership:***
To quickly resolve the issue, CONTACT the dealer's service manager *and* Grand Design Customer Support.

Please have the following available when you call:

1. Your name, location and phone number where you can be reached
2. Your RV's 17-digit VIN
3. Date of purchase
4. Contact information for the RV repair facility or dealer
5. Detailed description of the concern
6. If applicable, the component description, serial and model numbers

Promptly report any issue with an RV repair to the management where the work was done. All repair businesses require notification of problems within a specified time limit. Please familiarize yourself with the RV dealer or repair center's policies.

However, Warrantor has no responsibility or control over the outcome of warranty claims against these manufacturers, suppliers or component manufacturers. If you have trouble locating the manufacturer supplying these warranties, contact your selling dealer.
